

## External research courses

### 1. We need:

1. A research proposal (about 1/2 page) written by the student including beginning and end of his/her internship (sent per e-mail).
2. An official letter from the direct supervisor and a project description including support and supervision in the lab and the methods which will be used and an approximate time schedule

### 2. After the research course:

The student sends a „Protokoll“ written by him-/herself (about 20 pages) to Professor Leonhardt (cc to Ms Breitsameter). **It needs to be delivered within four weeks after the research course's official end (per e-mail as PDF file).**

The external research course will not be graded.
